

“You need to know what I know...I know because I was a victim of vicious extremism. We lost our home, our business, and our friends in Lebanon. I know because it’s happening here, today, now.”

“America...the dream that became my address.”

War has been declared on Christians, Jews, non-Muslims and secularists worldwide by Islamic extremists...simply *because we are infidels according to their belief.*

As Islamic fundamentalism spreads its tentacles worldwide, it is crucial for the people of the Western world to understand the danger, know what to expect, and know what to do about it.

Threats and realities of forced conversions to Islam, beheadings, torture and murder are quickly becoming commonplace. They’re rarely mentioned in the news and when they are, it’s with a disclaimer...the word “insurgent” has replaced the truth of “terrorists.”

Political correctness is killing us.

This Is The New Reality

We are in for the fight of our lives.

That we have not yet had another terrorist attack in the United States is remarkable, but it will happen. Al Queda keeps its promises.

How do I know this? I was born in Lebanon and raised as a Christian. When the Lebanese Civil War broke out, our family, and our Maronite community came under vicious attack by Islamic extremists.

They promised to destroy us, and as you know from the recent war in Lebanon, the country is now nearly Islamic.

I was nearly killed by a mortar. Our home was destroyed. We lived in a bomb

I used your words in my sermon Sunday and I pray they moved people to hear the message I heard you share. Your gift for activism is a powerful gift and reaches untold millions.

Leah

Thank You. I have been looking for an organization like this.

Jerry

Thank you so much for your work. Everything you do in this organization I believe is critically important, and will save lives and inform those who need to hear the real story of what is going on.

shelter for seven years. Most of my childhood friends were killed...that's how I know.

We must make the connection between individual safety and a strong national defense, increase civic preparation and political responsibility, and train all Americans to become defenders of our community safety and national security.

Anguish struck the citizens of the United States of America on 9/11 as a handful of hateful men murdered nearly 3,000 innocent people. A heavy pall of grief covered our nation.

Many of us wondered if we'd ever laugh again.

But 9/11 wasn't the only act of terrorism. Bali, London, Madrid, Jerusalem... the list goes on and on. Yet the West does not fully realize the bloodthirsty intentions of the menace of fundamental Islam.

This Enemy Is Relentless. It Is Determined.

Why Does Our Struggle Matter? It Matters Because...

If we don't win the war against Islamofascism, other issues won't matter at all.

We won't have an economy to worry about.

We won't have equal rights for all.

We won't have our cherished freedom.

Michael

I heard you this morning on Tedd Webb's program (WFLA, News Radio) and I have never heard more common sense since I have been listening to coverage of the "Middle East Problem." Bless you for your ideas and guts.

Luis

We Must Win This War

The enemy loves death -- far more than we love life.

The enemy uses children as human shields, mothers as suicide bombers, men driven by the glory of death and the promise of eternal sexual bliss in heaven...and martyrdom on earth.

This is the enemy reality: murder and death of "infidels" by any means for the glory of Allah.

The pain-rich attack of 9/11 changed most Americans lives forever, but it struck an especially sensitive chord with me. It reminded me that the entire world is under brutal threat and physical attack by the same radical Islamic ideology that massacred "infidels" in Lebanon during the Lebanese Civil War.

The American Congress for Truth (ACT) was formed in June 2002 to clear away the fog of the brutal attack of September 11, 2001. Our purpose is to preserve our cherished values and freedoms.

Our Members Include:

Jews, Arabs, Christians, and non-Muslims from all backgrounds both secular and religious, liberals and conservatives.

These good people have put their differences aside to combat both anti-American and anti-Israel propaganda masquerading as anti-Imperialism and anti-Zionism:

- in the Western media
- among the intellectual elite
- on American college campuses
- in churches, synagogues and other places of worship
- in business groups and civic meetings
- wherever it exists

Al Gainey Radio Talk Show Host:

THANK YOU so much for providing Brigitte to interview on Saturday morning. She was absolutely fabulous and had all six of our lines lighted up at all times. She was in demand, not the 20 minutes we had originally discussed, but for a full hour!!!

She really made the show today. Her passion, knowledge and straightforward spirit were just what we needed to tackle this topic. Wow!! I want her back on a regular basis to educate our listeners. Thanks again for recommending her. She's simply the best.....!!!

As America stood up against and defeated communism--now it is time to stand up and stare down the evil of religious bigotry and intolerance. So many times in history, citizens have done nothing...and evil prevailed.

We can see from history that this is true. We can see that today this is true.

We Need Your Help. We Need Your Donations.

Honestly, I can't do it alone. ACT is a small non-profit. We can't do our work without your help, without your generous donations, but together we can save our country and our freedom. You are the heroes who make our work possible.

I especially thank you for helping me protect the country that has blessed me so much.

Chris
Brigitte, your book is astonishing. I devoured it in one sitting. I thought I knew a lot about the subject but you taught me a few things I was not aware of. Thank you for telling the truth, for putting yourself out there to protect this country.

Sarah
Thank you for your bravery and everything that you do to help us win the war on terror. With people like you speaking out, I remain optimistic about our future
