

Portable Water Distiller

Safe water, wherever you travel!

Perfect for home use or travel, especially when the local water is suspect. Extensively used by the Peace Corps worldwide, Model 4000 kept volunteers safe from waterborne disease. Compact, lightweight, easy to store. Small footprint is perfect for RV's or other space limitations.

The best part...no assembly or installation.

Simply fill the stainless steel boiler with water, plug in, and press the start button. Collector bottle fits neatly inside distiller for compact storage and portability.

Model 4000: Now \$349.00
